SEEKING YOUR FEEDBACK & INPUTS!

ICCL – “in a nutshell”

- ◆ a global network of experts working on regulatory and policy making issues
- ◆ Main meeting aim: informal exchange of know how and experiences between ICCL participants.
- ◆ ICCL is an open space – ideas, opinions and experiences can freely be shared among peers
 - *Without the CHATHAM HOUSE RULE and if open to all stakeholders (attendees, via social networks – Twitter, LinkedIn etc.) national experts will have to act as officials and may only present official positions,*
 - *thus the discussions will be less free and less fruitful*

One final remark ...

- ◆ Although simultaneous translation English >< Spanish is offered
- ◆ not all of us are native speakers!

Please speak loud, moderate and clear
